

## Senior DevOps & Platform Engineer (SRE)

Dehradun, India (Relocating to Germany & Luxembourg) · +91 78198 00649 · [kartikmysterio@gmail.com](mailto:kartikmysterio@gmail.com) · [linkedin.com/in/kartikey-kushwah-57283614b](https://linkedin.com/in/kartikey-kushwah-57283614b) · [github.com/1stdevfriend](https://github.com/1stdevfriend)

Senior DevOps & Platform Engineer with 6+ years of experience designing, automating and maintaining high-availability infrastructure across AWS, Kubernetes and Hetzner bare-metal environments. Strong background in Infrastructure as Code, CI/CD, observability, open-source platforms and production operations for enterprise, startup and government clients.

## TECHNICAL SKILLS

**Infrastructure:** AWS (EC2, IAM, VPC, Route53, S3, CloudFront, ALB, ACM, ECR, CloudWatch), Hetzner, DigitalOcean, Contabo

**CI/CD:** GitHub Actions, GitLab CI, Jenkins, Drone CI, TeamCity, Fastlane

**Linux:** Ubuntu, Debian, Bash, systemd, PM2

**Web:** Nginx, Apache, HAProxy, Reverse Proxy, SSL, Let's Encrypt

**Containers & IaC:** Kubernetes (CKAD), Docker, Docker Compose, Helm, Portainer, Terraform, AWS CloudFormation

**Monitoring:** Prometheus, Grafana, Sentry, GlitchTip, Uptime Kuma

**Databases:** PostgreSQL, PostGIS, MySQL, TiDB, Redis, Elasticsearch, MinIO, Celery

**Development:** Node.js, Express.js, Flask, React, Next.js, Git

## EXPERIENCE

Senior DevOps & Full Stack Engineer — Koders Korp LLP 2020 – Present

- Managed multi-cloud production infrastructure across AWS, Hetzner bare-metal, DigitalOcean and Contabo supporting 200+ production services.
- Designed highly available Kubernetes and Docker platforms for scalable microservices.
- Built CI/CD pipelines with GitHub Actions, Jenkins, GitLab CI, Drone CI, TeamCity and Fastlane.
- Provisioned AWS infrastructure using Terraform across VPC, ALB, CloudFront and ECR.
- Implemented Prometheus, Grafana, Sentry and GlitchTip observability.
- Improved reliability using Redis caching and Celery workers.
- Led infrastructure architecture, mentoring, documentation and self-hosted open-source adoption.

## KEY PROJECTS

**Instaride:** Germany Government Mobility Platform using AWS, Flask, PostgreSQL/PostGIS and automated Flutter deployments.

**Wrencho:** AWS infrastructure, Docker, monitoring, Strapi CMS and mobile release pipelines.

**Defendia:** CI/CD for browser extensions, Electron, React and Postfix mail infrastructure.

**RFID Attendance System (Indian Army):** Secure isolated deployment of hardware-integrated Flask backend.

## CERTIFICATIONS

- Advanced Git and GitHub Features
- Python for the Absolute Beginner
- Jenkins for Beginners
- Docker Basics for DevOps
- Git Basics for DevOps
- DevOps Prerequisite Course
- Agile with Atlassian Jira
- Fundamentals of Red Hat Enterprise Linux
- Version Control with Git
- AWS Solutions Architect
- CKAD
- Terraform Fundamentals
- IBM Applied DevOps Engineering
- DevOps Mastery

## EDUCATION

**B.Tech + LL.B. (Cyber Law)**  
UPES · 2016 – 2020 · CGPA 8.0/10

## LANGUAGES

English (Professional) · Hindi (Native) · German (Basic, learning)
